

Climate Action Monaro is the only voice for climate action in the Snowy-Monaro region. Our work in educating the public and decision-makers about the reality of climate change is critical.

The purpose of Climate Action Monaro is to:

- **Inform and educate** the Snowy Monaro community about the science of climate change through weekly email bulletins, public forums and meetings.
- **Lobby governments** to take action to mitigate and adapt to the challenges of climate change.
- **Advocate** sound policy decisions to help our community respond to climate change.
- **Form partnerships** to address climate change in the region, state, and nation.
